

UZBAH NASEEM

Software Engineer Intern

✉ uzbahnaseem90@gmail.com <https://github.com/Uzbah/Uzbah.github.io> 📍 Karachi, Pakistan

SUMMARY

Motivated and aspiring IT enthusiast eager to embark on a frontend internship, design, and architecture in Java within your esteemed company. While I may have limited professional experience, I possess a strong foundation in frontend development, Java programming, and software design principles gained through coursework and projects. With a keen eye for detail and a passion for creating seamless user experiences, I am committed to expanding my skill set and contributing my best efforts to the success of your projects. As a dedicated learner, I am eager to absorb knowledge from seasoned professionals and integrate it into my work. I am excited to leverage this opportunity to grow and develop both personally and professionally while making a positive impact on your esteemed organization.

SKILLS

Data Structure & Algorithm			Git	Object-Oriented Programming
Linux	MySQL	MongoDB	Software Design & Architecture	
Bootstrap	SRS			

PROJECT

Recruitment Management System in SDA

Developed a Recruitment Management System by implementing design patterns like Factory, Observer, and Singleton, enhancing flexibility and maintainability. The system encompassed candidate management, job posting, interview scheduling, and applicant tracking, providing a comprehensive solution for efficient recruitment processes. By adhering to software design and architecture principles, I ensured a modular and scalable system design.

GUI Implementation of Data Structures in Java - DSA

Developed a graphical user interface (GUI) in Java to showcase various data structures, including linked lists, stacks, queues, and trees. The GUI provided interactive visualizations, demonstrating my proficiency in object-oriented programming and graphical programming libraries.

Online Quiz System in Java - OOP

Created an online quiz system using Java, featuring a user-friendly interface for students to take quizzes and view their scores. The system incorporated functionalities like question randomization, time-based quizzes, and result tracking to enhance the user experience and assessment process.

PROGRAMMING

Java

HTML5, CSS3

SQL

STRENGTHS

- 🗣️ Leadership Acumen
- 👥 Team Building Expertise
- 💡 Self-Directed Learning
- 🗣️ Strong Communication Skills
- 🕒 Analytical Acumen
